

FOR IMMEDIATE RELEASE

Wyoming High School Activities Association (WHSAA) Board of Directors

Fort Washakie, Wyo. (27 OCT 2022) - At the September board meeting, the WHSAA Board of Directors voted and approved Fort Washakie High School to add varsity volleyball and girls basketball. The district will begin these varsity athletics in the 2023-2024 school year.

Michelle Ferris-Friday, Athletic Director, Fremont County School District #21, will attend the upcoming scheduling meeting to determine the conference schedule for the 1A Fort Washakie Eagles. The addition of varsity athletics has been a long process; the high school has offered JV athletics in cross country, volleyball, basketball (boys and girls), and track. FWHS has combined with other high schools for football and other sports. However, the girls teams have endured over the years to sustain enough eligible student-athletes to field a varsity team for volleyball and basketball.

The district is hoping to offer additional varsity athletics such as boys basketball, cross country, and track in the future. For more information, please contact Michelle Ferris-Friday at 307-332-5983.
