APPROPRIATE ACCESS POLICY

EDUCATIONAL PROGRAMS SERIES 507

COMPUTER ASSISTED PROGRAMS

(Use of Internet, E-Mail and Local Area Network)

It is the policy of this School District that the staff and students will be encouraged and permitted to utilize the computer network provided by the School District to the greatest extent possible to facilitate learning and provide the best education experience possible. In this regard, the School District has made electronic mail and the internet available to students and staff.

All students must obtain parental permission, sign and return a Internet/Intranet Use Agreement form to the School District to gain access to E-mail and the internet. All users must sign the Internet/Intranet Use Agreement form prior to access being granted.

Access to the internet will enable students to explore thousands of libraries, databases and bulletin boards while exchanging messages with internet users throughout the world. Families should be warned that some material accessible via the internet may contain items that are illegal, defamatory, inaccurate and potentially offensive. While it is possible for students to access inappropriate material and otherwise misuse the system, it is the intent of the School District that network access, local and worldwide, should only be used to further the educational goals and objectives set out for each student.

It is the policy of this School District to educate our students by implementing the use of modern technology. Students will need to be familiar with various types of technology in order to be successful in their subsequent education and careers. However, in order to utilize this technology, it will ultimately be the responsibility of the parents and guardians to set and convey standards to their own children that they will follow while utilizing this technology. To that end, the School District will support and respect each family's right to decide whether or not to apply for access. The Board authorizes the superintendent to prepare appropriate acceptable use procedures and regulations for implementation of this policy and for reviewing and evaluating its effect on instruction and student achievement.
